Thanks and acknowledgements

A book like this owes a great deal to many people.

Many thanks are due to the editorial team under Nóirín Burke at Cambridge University Press who steered this book through the preparation of this new edition. We are particularly grateful to Caroline Thiriau, Hazel Meek, Emily Hird and Alison Silver, who have provided us at different stages of the process with generous help and guidance. Thanks are also due to Jeanette Alföldi and the production team, and Lucy Mordini for the proofreading.

Our domestic partners as always get a special thank you for their tolerance and support. It is a great sadness that Vlad will not be able to enjoy seeing the final copies of a book that he did more to help produce than he could ever have realised.

We would also like to thank the teachers and students who participated in focus groups at the following institutions:

Development of this publication has made use of the Cambridge International Corpus (CIC). The CIC is a computer database of contemporary spoken and written English, which currently stands at over one billion words. It includes British English, American English and other varieties of English. It also includes the Cambridge Learner Corpus, developed in collaboration with the University of Cambridge ESOL Examinations. Cambridge University Press has built up the CIC to provide evidence about language use that helps to produce better language teaching materials.

Introduction

To the student

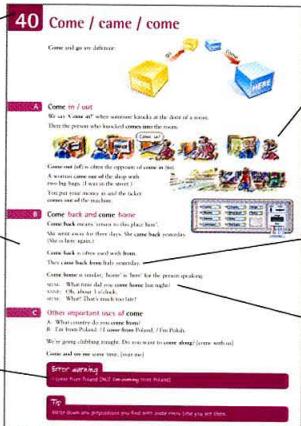

This book will help you learn around 1,250 new words and phrases. You can use the book yourself, without a teacher. You can do the units in any order you like. The CD-ROM includes practice exercises, games and tests (see page 173).

Here is what the pages look like:

The left-hand page presents the new vocabulary.

The left-hand page is divided into sections.

Error warnings and learning tips are also given on the left-hand page.

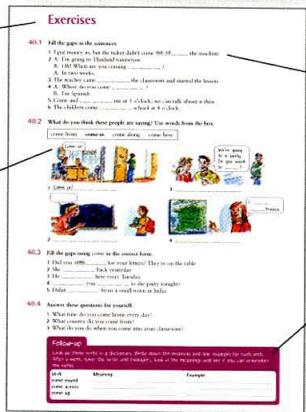

Diagrams and pictures show the meaning.

Example sentences show the words in context.

Mini-dialogues show how people use the words in real situations.

The right-hand page practises the new vocabulary.

Pictures, tables and diagrams give variety to the exercises.

A lot of different exercise types are used: gap-fills, answering questions, matching, etc.

Follow-up tasks give you a chance to do more work on the topic of the unit.

The Answer key at the end of the book is for you to check your answers to the exercises after you do them. The Answer key sometimes has more than one answer. This is because there is often not just one correct way of saying something. The Answer key also has possible answers for most of the exercises which are open-ended, or where you are asked to talk about yourself.

The Index at the end of the book has all the important words and phrases from the left-hand pages. The Index also tells you how to pronounce words. There is a list of phonemic symbols to help you understand the pronunciation on page 158.

It is a good idea to have a dictionary with you when you use the book so you can check the meaning of something, or translate a word into your own language. Sometimes, you will also need a dictionary for the exercises; we tell you when this is so. You also need a vocabulary notebook to write down new words. See page 172 for ideas on how to learn and remember these new words.

We hope you like this book. When you have finished all the units in this book, you can test yourself using the book of tests that accompanies this book, *Test Your Vocabulary in Use Elementary Second Edition*. Then you can go to the next book in the series, *English Vocabulary in Use: Pre-intermediate and intermediate*, and after that, to the higher levels, *English Vocabulary in Use: Upper-intermediate* and *English Vocabulary in Use: Advanced*.

To the teacher

This book can be used in class or as a self-study book. It is intended for learners at A1–A2 levels of the Council of Europe scale. It aims to take learners with a very basic level of vocabulary to a point where they can use approximately 2,000 words and phrases and teaches them around 1,250 new words and phrases. The vocabulary has been chosen for its usefulness in everyday situations, and we consulted a written and spoken corpus of present-day English to help us decide on the words and phrases to be included. The new vocabulary (on average 20–30 items per unit) is presented with illustrations and explanations on the left-hand page, and there are exercises and activities on the right-hand page. There is an Answer key and an Index with pronunciation for all the key vocabulary.

The book focuses not just on single words, but also on useful phrases and collocations. For example, difficult teaching points such as the difference between **do** and **make** are dealt with through collocation (we **do** our homework, but we **make** mistakes), and useful phrases (e.g. **come along**) are presented.

The book is organised around everyday topics, but also has units devoted to core verbs such as **get** and **bring / take**. Typical errors are indicated where appropriate, and the most typical meanings and uses are focused on for each key item. The units in the book can be used in any order you like, but it is often a good idea to do blocks of units based round the same topic (e.g. *People, At home, Leisure*).

The right-hand pages offer a variety of different types of activities, including traditional ones such as gap-filling, but also more open-ended ones and personalised activities which enable learners to talk about their own lives. Although the activities and exercises are designed for self-study, they can easily be adapted for pairwork, groupwork or whole-class activities in the usual ways. For example, where there are dialogues, students can take the speaking parts and practise the conversations, and where the exercises have questions and answers, students can practise asking each other the questions and answering them. See who has the best ideas for recording vocabulary in their notebook. The Answer key sometimes gives alternative answers to the exercises, and also gives possible model answers for the more personalised ones.

When the learners have worked through a group of units, it is a good idea to repeat some of the work (for example, the exercises) and to expand on the meaning and use of key words and phrases by extra discussion in class, and find other examples of the key items in other texts and situations. This can be done at intervals of one to three months after first working on a unit. This is important, since it is usually the case that learners need five to seven exposures to a word or phrase before they can really know it, and no single book can do enough to ensure that words are always learnt first time.

When your students have finished all the units in this book, they can test themselves using the book of tests that accompanies this book, *Test Your Vocabulary in Use Elementary Second Edition*. They will then be ready to move on to the next book in this series: *English Vocabulary in Use: Pre-intermediate and intermediate*, by Stuart Redman.

We hope you enjoy using the book.

When you learn a new irregular verb, add it to one of the groups of verbs on these pages.

How to learn vocabulary

To learn a lot of vocabulary, you have to do different things.

- 1 Study each unit of the book carefully and do all the exercises. Check your answers with your teacher. Repeat the units after a month, and then again after three months, and see how much you have learnt and how much you have forgotten. Repeating work is very important.
- 2 Keep a vocabulary notebook. Students who regularly make notes in a separate notebook often do better in tests and examinations than students who do not keep a notebook.
- 3 Use different ways of recording things in your notebook. For example, every time you see or hear an interesting phrase, write it in your notebook, and write who said it or wrote it, and in what situation, as well as what it means. Here are some examples:

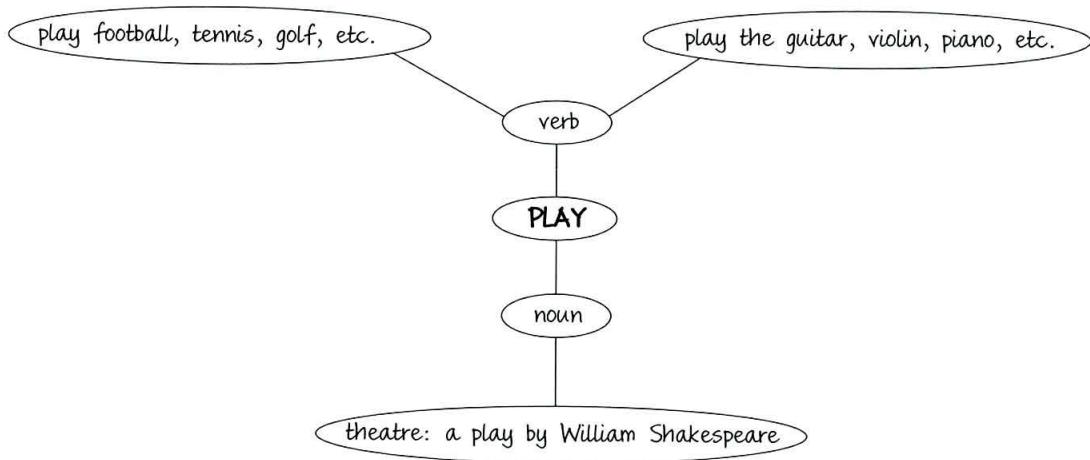

ready: (*person at the door of a theatre, to all the people waiting*) 'Have your tickets ready, please!' = have your ticket in your hand

else: (*person in a restaurant*) 'Would you like anything else?' = more or in addition or different

rush hour: (*person who is about to leave home for work*) 'I'm going early so that I miss the rush hour' = the times when there are lots of people travelling to work in the morning or when people are travelling home in the evening

Making notes of the situations words are used in will help you to remember them and to use them at the right moment.

- 4 Use diagrams and other visual aids to help you learn and remember words and phrases. Word bubbles are very easy to draw and can help you remember the different meanings and uses of words. Here is an example for the word *play*, which can be a verb or a noun:

Charts can also help you to organise information about words. This student has made notes in her vocabulary notebook about useful verbs and the nouns we use them with:

take	a taxi a message violin lessons	catch	a cold a criminal a ball	make	dinner a mistake an appointment	do	my homework somebody a favour my best (to)
------	---------------------------------------	-------	--------------------------------	------	---------------------------------------	----	--

How to use the *English Vocabulary in Use Elementary* CD-ROM to learn vocabulary

Your copy of *English Vocabulary in Use Elementary* comes with a CD-ROM. You can use the CD-ROM to improve your English vocabulary. These two pages answer some common questions about the CD-ROM.

What is on the CD-ROM?

The CD-ROM contains:

- two practice activities for each unit of the book (120 in total)
- two vocabulary games, *Word Challenger* and *Falling Letters*
- a test maker
- a record and play-back function
- a dictionary function.

When should I use the CD-ROM?

You can use the CD-ROM before or after you do a unit in the book. This section will give you some suggestions.

Using the CD-ROM before you look at a unit in the book

The CD-ROM can help you discover how much vocabulary you already know about a topic. Try this:

- Choose a topic from the *Exercises* menu, for example *Food and drink* in the *At home* section.
- Complete the two exercises. After each exercise, click *Check your answers* to see how many questions you got right. Make a note of any words you found difficult.
- Now go to the relevant unit of the book. Study the notes on the left-hand page. Try to find the words you didn't know from the CD-ROM. Complete the exercises on the right-hand page.
- Finally, return to the CD-ROM. Look at the *My progress* section. Can you improve your score this time? Complete the two exercises again for the same unit.

Using the CD-ROM after you look at a unit in the book

The CD-ROM can help you to remember words you learnt from the book. This kind of revision is very important if you want to remember vocabulary. Try this:

- When you complete a unit from the book, write the date at the top of the page.
- One week later, go to the CD-ROM and do the two exercises from that unit. How much vocabulary can you remember? Make a note of any words you found difficult or couldn't remember.
- Go back to the unit in the book and look for the words you didn't know. Study the words again.
- Finally, return to the CD-ROM and complete the two exercises again. Did you remember those difficult words?

The CD-ROM can also help you test yourself. You can even personalise the tests to cover the topics that *you* want to practise. Try this:

- When you finish a group of units in the book (for example, the nine units in the *People* section), go to the CD-ROM and make a test on the vocabulary from those units. The CD-ROM will create five test questions from each of those units. For an extra challenge, use the time limit function. If your score is low, look at the units again. Then create a new test and try to improve your score.
- Alternatively, create a test when you have completed the whole book. Choose units at random or concentrate on units that you found difficult.

Can the CD-ROM help me with my pronunciation?

Yes, it can. The CD-ROM has a record and play-back function which you can use to practise your pronunciation. Try this:

- When you have completed an exercise on the CD-ROM, click the green arrow to hear a model pronunciation of the words or sentences.
- Then click the red *Record your voice* button at the bottom of the screen. Practise saying the word or sentence.
- Now click the green *Play your voice* arrow at the bottom of the screen. Does your pronunciation sound correct? Listen to the model pronunciation again to check.
- Record your voice again if necessary.

Can I use the CD-ROM for fun?

Yes, of course! We hope you will find all of the exercises fun. However, there are also two games which can help you to practise vocabulary in a fun way.

- In *Word Challenger*, you score points by choosing the correct word for the picture. This game can help you to remember what words mean. You can make the game easier or harder by using the different options. If you write down your score after each game, you can try to improve it next time.
- In *Falling Letters*, you can practise listening and spelling. Try to score as many points as you can in the time available. Write down your score and try to improve it next time.

Both these games are quick and fun. Just playing for five or ten minutes a day can help you to remember more vocabulary. And to make things even more fun, you can have a competition with a friend. Who can score the most points?

What else can the CD-ROM do?

Remember that the CD-ROM also has a dictionary function. You can use it to look up any words that you don't know. You will need an internet connection for this.

Also remember that you can check your progress at any time using the *Progress* section. This will help you to see which exercises you have completed. It can also show you areas where you need more practice. In those cases, go back to the book and study the left-hand pages again.

We hope you enjoy using the *English Vocabulary in Use Elementary* CD-ROM.
